DETAILED ACTION

1. This communication is in response to the Election filed on 03/17/05.

Claims 1-62 are pending in this Office Action.

Examiner Withdrawn the previous Election/Restriction, because of typographical error/wrong classification.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13 and 37 are drawn to a method for data manipulation, classified in class 707, subclass 101.
- II. Claims 14-23, 38, 40, and 54-57 are drawn from database searching, classified in class 707, subclass 3.
- III. Claims 24-36, 39, 41-42, and 58-62 are drawn deleting database entry, classified in class 707, subclass 203.
- IV. Claims 43-50 are drawn from a data structure, classified in class 707, subclass 102.
- V. Claims 51-53 are drawn from a system for managing Internet Protocol Security, classified in class 709, subclass 230.

The inventions are distinct, each from the other because of the following reasons:

Inventions in Groups I, II, III, IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I

Art Unit: 2167

has separate utility such as a method for data manipulation. See MPEP § 806.05(d).

Invention in Group II has separate utility and requires database searching. And subsequently invention Group III, IV and V have separate utility and different from others.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

A telephone call was made to Attorney. Scott Moore (Reg. No. 42,011) on May 25, 2005 to discuss about the case but response has been made.

Applicants are advised that the reply to this requirement to be complete must include and election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
